

Should I Have a Doctor see me at home?

Do you worry about remaining independent in your home?
You might be eligible for medical house calls in your home.

- I have trouble getting to my Primary Doctor's office.
- I am relying on transportation to get to my Doctor's office.
- I am relying on my family and friends to help me get to my appointments.
- It's an effort for me to leave my home and or I often feel too weak to move around in my home.
- I am diabetic, and my blood sugars have been up and down.
- I have a wound or sore that won't heal or that I need help with.
- I have shortness of breath when I move in my home.
- Sometimes I am unsteady on my feet.

If you check any one of these boxes, you may want to consider having a medical provider come to you in your home. There is no additional cost for this service. Please call Medical House Calls at **513-699-9090**.
